Abstract (en)

[origin: EP3006170A1] A cutter assembly has a blade holder (10), a blade (50), a slider (20) and a screw-locking device (40). The blade (50) is moveably mounted in the blade holder (10) and has a moving direction. The blade holder (10) has a bottom and multiple engaging segments (12) disposed on the bottom along the moving direction of the blade (50). The slider (20) is mounted slidably on the blade holder (10) and connected to the blade (50). The screw-locking device (40) is mounted on the slider (20) and has a locking bolt (42) and a locking sleeve (44) screwed with each other. The locking bolt (42) has an end selectively engaging at least one of the engaging segments (12).
