Abstract (en)
[origin: GB2526891A] A blank (100) for a container 500 for the transit of goods, the container having a base and sidewalls, wherein the container has a flexible retainer (104) to be fixed to the sidewalls and are foldable over an item placed within the container to retain the item in position. A cohesive material is applied to a first side (112) of one of the flexible retainer and to a second side (114) of another flexible retainer, wherein the second side is opposite the first side. The cohesive material may be applied to the whole surface of the flexible retainer, or only part of the surface. The flexible retainer may have a depth greater than that of the sidewalls and may extend beyond the upper limit of any part of the container. The blank may be partially assembled in order to be more suitable to be transported.
