Abstract (en)
A container comprises a plastic vessel (102), a plastic base (104), and a collar (106) to join the vessel (102) with the base (104). A method of manufacturing a plastic container comprises forming a vessel (102) and a base (104) by rotational casting, placing the formed vessel (102) in the formed base (104), and joining the vessel (102) placed in the base with the base (104) by means of a collar (106).
