Abstract (en)

[origin: WO2014209216A1] The present invention relates to an ornament setting for a detachable ornament (3), comprising a setting base (1); two opposing ornament holders (2a,b) fixedly attached to or integral with said setting base (1) and adapted for holding the ornament (3) between them; a clamping ring (4) encircling said ornament holders (2a,b), which clamping ring (4) has inner dimensions such that in a release orientation of the clamping ring it allows release of said ornament (3), and in a clamping orientation the clamping ring (4) exerts a clamping force on said ornament holders to grip and secure said ornament (3) placed between the ornament holders (2a,b), wherein the clamping ring (4) comprises a spring metal layer (4c) and at least one other layer (4a,b,d,e). The present invention further relates to a method of detaching and remounting an ornament in said ornament base jewelry, as well as jewelry and watches comprising said ornament setting.
