Abstract (en)

[origin: WO2014206788A1] The invention mainly relates to an antibacterial filter which comprises at least one filtration substrate (11) and is essentially characterized in that the filtration substrate (11) comprises silver or a silver derivative. The invention also relates to a system for the air ventilation of the passenger compartment of a motor vehicle, in particular to an air conditioning system, comprising at least such a filter (13).
