Abstract (en)
[origin: WO2015003689A1] The invention relates to an armor against laser radiation for protecting an object (10), in particular a vehicle, against laser weapons, comprising an armor element (2) that can be arranged onto the object (10), said armor element (2) comprising a plurality of optical active bodies (3, 4, 5) for the impairment of the incident laser radiation. The invention further relates to a method for protecting an object (10), in particular a vehicle, against laser weapons and to a vehicle protected against laser weapons.
