Abstract (en)
[origin: WO2015001943A2] The present invention relates to a process for the preparation of natural flavors from individually quick frozen (IQF) fruits, vegetables and herbs. In particular, authentic, thermally unchanged flavor distillates can be prepared through distillation, on a Spinning Cone Column (SCC), of purees which are freshly prepared from frozen produce, e.g. IQF (individually quick frozen) fruits.
