Abstract (en)
[origin: WO2015007643A1] The invention relates to a razor, a razor set with a razor and a cup body and/or a pack of a personal hygiene product, and a method for producing a razor. To make available an improved razor, a razor (1) has a handle body (10) with a lower face (11) for placing on the skin of a user, and with an upper face (12) which lies opposite the lower face and is placed in the hand of the user, and a blade head (20) with at least one razor blade (21), wherein the lower face has an oval shape, and the blade head is arranged, within the oval shape, at a tapering end, and wherein the upper face has a convex curvature.
