Abstract (en)

[origin: WO2015007874A1] A method for producing molded foam parts (16) for construction or civil engineering comprises the following steps: inserting a packaging wrapper (18) of the molded foam part (16) to be manufactured in a mold (10), filling a flowable foam material (24) into the packaging wrapper (18) inside said mold (10), filling the cavity defined by the mold (10) and the packaging wrapper (18) with foam, and removing the molded foam part (16) so produced together with the packaging wrapper (18).
