Abstract (en)

[origin: US2015020364A1] The present invention relates generally to manufacturing metallic closures from a continuous coil of a pre-coated sheet metal material. More specifically, the present invention relates to manufacturing closures adapted for interconnection to a threaded neck of a container using a continuous coil of pre-coated aluminum sheet material. In one embodiment, marketing indicia or product information may be applied to the closures after formation of the closures.
