Abstract (en)

[origin: WO2015007898A1] The present invention relates to a process for forming a collection of chromatograms of a reference mixture of organic compounds. The present invention also relates to a process for identifying compounds of a sample of an organic mixture using a collection of chromatograms. The present invention relates, moreover, to a kit for identifying at least one compound of a sample of an organic mixture. The invention belongs to the field of analytical chemistry.
