Abstract (en)  
[origin: WO2015007469A1] The present invention relates to a load switch (1) for carrying out switching operations from a winding tap to an adjacent winding tap. The load switch (1) has a simple design, is inexpensive to manufacture and mount and allows a safe and reliable operation. The actuating arrangement (41) consists of a plurality of physically separate actuating elements (50) having control cams (51, 52).
