Abstract (en)
[origin: US2016102906A1] An indoor unit includes a case having an opening part on a lower surface thereof when the indoor unit is installed, and a decorative panel having a substantially rectangular air inlet being open to the opening part of the case and being attached to the lower surface of the case. The decorative panel has temporary hanging levers attached to opposed positions shifted to be parallel from midpoints on any opposed two of four sides on edges of the air inlet toward any opposed vertexes. The case has temporary hanging hooks corresponding to the temporary hanging levers on edges of the opening part.
