Abstract (en)
[origin: EP3025950A1] A space of an inboard section can be effectively used and thus a compartment can have a larger space (living space) compared with a configuration in which walls (inner wall materials) stand in a vertical direction in the inboard section. An object is to provide a technique related to a small watercraft. A small watercraft 1 for leisure use that is used for sports, recreations, and the like includes a compartment formed with an inner wall material 54 provided on an inboard section in such a manner as to be curved in accordance with a shape of the inboard section.
