Abstract (en)

The present invention relates to a container (10) for consumer articles, the container (10) comprising a box portion, a first spacer (20) which is mounted within the box portion, and a second spacer (22) which is mounted within the first spacer (20), wherein the box portion comprises a box front wall (14), a box rear wall (16), a box bottom wall and two box side walls (12) extending between the box front wall (14) and the box rear wall (16) and wherein the first (20) and second (22) spacers are mounted essentially perpendicular to the box bottom wall. The present invention further relates to a process for making same.
