Abstract (en)
[origin: EP3025986A1] A container (41) for smoking articles comprises a continuous fold line (105) extending around a housing, wherein said container is foldable about said fold line (105) so as to reduce the footprint of the folded container. A blank and a folded blank for forming the container is also provided, as well as a method for folding the folded blank and a method for forming the container. A tobacco container with a folded blank is also described.
