Abstract (en)

[origin: CN105621333A] The invention relates to a lifting unit (10) used for lifting and lowering a container in a container treatment assembly. The lifting unit includes a container fixing device (20) used for holding the container, a lifting device (60) used for lifting and lowering the container fixing device (20) and a locking device (70) used for locking the container fixing device (20) in a preset position, wherein the locking device (70) is magnetic.
