Abstract (en)
[origin: WO2015018630A1] The present invention relates to a seamless knit foot-covering garment (1), as well as a method for manufacturing thereof on circular machines for hosiery and knitwear. The foot covering garment comprises a heel portion (4), a toe portion (2), a middle portion (3) located between the heel portion (4) and the toe portion (2) and an opening (5) between said heel portion (4), said middle portion (3) and said toe portion (2). The toe portion (2) and the heel portion (4) being aligned along a longitudinal direction. The garment is seamlessly knitted as a whole. At the opening (5) the middle portion (3) ends with right and left restraining edges (6, 6') comprising a plurality of specific stitches (7) of at least one main thread, named elongated stitches, each of them having a longitudinal extent in the longitudinal direction corresponding to the total longitudinal extent in the longitudinal direction of at least two stitches (8) of said at least one main thread in the remaining middle portion (3).
