Abstract (en)  
[origin: WO2015059008A1] A machine table foundation (38) can be achieved with a shortened construction time using the method according to the invention, the machine table foundation according to the invention, and/or the use according to the invention. In the case of the method according to the invention, this is achieved in that the in-situ concrete (42) is cast on at least one concrete semifinished part (12) which is positioned in the machine table foundation (38) in the final position of the semifinished part. In the case of the machine table foundation (38) according to the invention, the table top (40) has at least one concrete semifinished part (12) and an in-situ concrete (42) cast on the concrete semifinished part (12). In the case of the use according to the invention, the at least one concrete semifinished part (12) is used for a table top (40) of a machine table foundation (38).
