Abstract (en)

[origin: US2016167110A1] A method for crimping, by means of an automaton, a ring on an attachment rod extending along an axis of the attachment rod from a panel, includes moving a movement clip of the automaton that grips the ring so that the attachment rod is introduced into the ring, moving a crimping nose of the automaton so as to prevent the removal of the ring from the attachment rod, releasing the ring, and moving the crimping nose so as to crimp said ring on said attachment rod.
