Abstract (en)

[origin: WO2015022346A1] Pre-coat candle filter and filter candle with an inner body. The present invention relates to a filter candle for a pre-coat candle filter, having an endpiece and a headpiece, which close the filter candle, and wherein the headpiece has a filtrate outlet; having a filter body; and having an inner body in the interior of the filter body, wherein the endpiece closes off a lower region of the inner body and the headpiece closes off an upper region of the inner body; wherein the inner body, merely in the lower region, has one or more apertures in an otherwise closed outer shell, it being possible for the filtrate to pass through said apertures into the interior of the inner body. The invention also relates to a pre-coat candle filter with such a filter candle.
