Abstract (en)

[origin: EP3034320A1] A method for producing scented decorative laminates and faced panels, the method comprising: - using a scented essence to impregnate a sheet of transparent paper without a thermosetting resin; - layering a sheet of decorative paper impregnated with a thermosetting resin over a substrate and a sheet of transparent paper impregnated with a scented essence over the sheet of decorative paper; - applying pressure and heat to the layering thus obtained to cross-link the thermosetting resin and stably and rigidly bonding the substrate, the sheet of decorative paper and the sheet of transparent paper together.
