Abstract (en)

[origin: EP3035319A1] Fixation device (1) for releasable fixation of shelf accessories (60, 70, 600) to a shelf and comprising an elongated profile element adapted to be mounted along the front edge of a shelf. The profile element comprises a mounting portion (20) provided with mounting means (21, 22, 23) adapted to engage the front edge of a shelf; and a first fixation portion (40) provided with first fixation means (45, 46) adapted to engage with a plurality of first accessories (60) for releasable fixation of the first accessories to the fixation device. The profile element further comprises a second fixation portion (27) having second fixation means (25, 32, 33) adapted to engage with a plurality of second accessories (70) for releasable fixation of the second accessories to the fixation device (1). The second fixation means (25, 32, 33) is adapted to allow fixation of the second accessory (70) in at least two different positions relative to the shelf, when the profile element is mounted to a shelf.
