Abstract (en)

[origin: WO2015024868A1] The invention relates to the use of small quantities of sterol esters, in particular oryzanol, in cosmetic or dermatological deodorant- and/or antiperspirant preparations, wherein, the addition of UV filters, Butylated hydroxytoluene and other antioxidants can be dispensed with, without risking losses in terms of product stability. In fact, product stability is improved with regard to perfume stability and colour stability.
