Abstract (en)
[origin: WO2015158356A1] The invention relates to a method for separating off an annular edge portion (2) from a cylindrical, thin-walled hollow article (1), in particular a deep-drawn, cup-shaped hollow article (1), the cylindrical hollow article (1) being turned about its cylinder axis (4) and a laser beam being directed onto the cutting point during the multiple turns until the edge portion (2) is detached from the rest of the hollow article.
