Abstract (en)
[origin: WO2015027253A1] The invention relates to an adjusting device for moveably mounting a furniture part (2) onto a furniture body (3), comprising an adjusting arm lever (4). A first lever (5) of the adjusting arm lever (4) can be moved with respect to a second lever (6) of the adjusting arm lever (4) from a mounted position into an operating position. The first lever (5) can be locked in the locked position with respect to the second lever (6) by means of an automatic locking device (7).
