Abstract (en)

[origin: WO2015028208A1] The invention relates to a method for determining the quality of a road (302) traveled on by a vehicle (304). Said method consists of the following steps; a specification for determining the quality of a road (302) traveled on by a vehicle (304) is modified (904) in accordance with an additional parameter (308) which displays information relating to the state of the road (310), which represents the quality of a section of a road in front of the vehicle (304) in the direction of travel (312).
