Abstract (en)
A ski boot or off-track ski boot (4) comprising a lower part or foot portion (8), suitable to embrace the foot of the user and an upper portion or leg portion (12), suitable to embrace the lower leg of the skier, the foot portion (8) and/or the leg portion (12) being provided with flaps (24,28) separate and facing each other, provided with fastening means (32) to allow the opening, closing and tightening of said flaps (24, 28). Advantageously, at least one of said fastening means (32) is attached to a flap (24, 28) by means of a cable (56), said cable (56) being at least partially inserted in a seat (60) delimited by a fairlead (64), wherein the fairlead (64) comprises an insert (68) attached to the flap (24, 28) and a removable platelet (72), joined and superposed to a portion of the insert (68).
