Abstract (en)  
[origin: EP3040459A1] Provided is a double fleece knit fabric that combines features of both Jacquard knitting of a mesh pattern with concavity and convexity on the face side and double fleece knitting on the back side, of a ground fabric composed of double-fleece-knitted tie-in loops and knit-in loops. In a double fleece knit fabric composed of three kinds of yarns consisting of inlay tie-in, and knit-in yarns, produced on a circular knitting machine, a tie-in yarn is either knitted or welted, and a knit-in yarn is all knitted. It is preferable that an inlay yarn, a tie-in yarn, and a knit-in yarn that are successively arranged are taken as one block, the tie-in yarn in the same wale as the wale where the inlay yarn is welted is either knitted or welted, and the tie-in yarn in the same wale as the wale where the inlay yarn is tucked is knitted, and the knit-in loops are overlapped and intertwined thereon.
