Abstract (en)

[origin: EP3040503A1] The present invention relates to roller shutter housings (1), more particularly to side panels (5) for roller shutter housings (1). The side panels (5) comprise a removable guide element (12) having interconnected upper (13) and lower (15) legs, and a base plate (6) provided with a slot (7), wherein said slot (7) is provided such that, when the upper leg (13) is positioned in the slot (7), the lower leg (15) projects outwardly from the side panel (5). The present invention further relates to methods for mounting a roller shutter housing comprising such side panels.
