Abstract (en)

[origin: WO2015028102A1] The present invention relates to an ironing board (1) suitable for use with a cordless clothes iron (2), comprising a table (3) for ironing clothes thereon, an induction coil (4) for generating a time-varying electromagnetic field and a first control unit (5) for controlling operation of the induction coil (4) and a support unit configured to movably support the induction coil (4) along the table. The present invention further relates to an ironing system (12) comprising the ironing board (1) and the cordless clothes iron (2), wherein the cordless clothes iron (2) has a sole plate (13) made from a material suitable for induction heating.
