Abstract (en)

[origin: WO2015036704A1] The present invention concerns the cosmetic use, by topical administration, of an extract of *Tapirira guianensis*, for stimulating the expression of perlecan and/or dystroglycan and/or VE-cadherin and/or claudin-5, in particular in the extracellular matrix and/or in the epithelial basement membrane, in particular the dermoepidermal junction. It also concerns a method of cosmetic treatment comprising the application onto at least one area in question of healthy skin and/or healthy mucosa and/or healthy scalp of an extract of *Tapirira guianensis* or of a cosmetic composition comprising such an extract for stimulating the expression of perlecan and dystroglycan and/or VE-cadherin and/or claudin-5, in particular in the extracellular matrix and/or in the epithelial basement membrane, in particular the dermoepidermal junction. It also concerns a cosmetic composition comprising an extract of *Tapirira guianensis* and a topically acceptable cosmetic carrier. It finally concerns an extract of *Tapirira guianensis* or a dermatological composition containing an extract of *Tapirira guianensis* and a dermatologically acceptable carrier for use, by topical administration, in the treatment and/or prevention of rosacea, des telangiectasias, and/or pathologies of the oral and/or ocular mucosa.
