Abstract (en)

[origin: WO2015036685A1] A bag (1) comprising a body (2) defining a storage enclosure, a sticker (9) that can be completely separated from the bag by pulling which, before separation of same from the bag (1), is disposed to at least partially cover and correspond with a rupturable weakening forming a closed line (6) in the body (2) such that, when the sticker (9) is pulled, a tear is created in the interface (3) and the body (2), forming an opening through which the bag (1) can be emptied. When the sticker (9) is separated from the bag (1), the bag has, around the opening (7), an adhesive area (8) surrounding said opening (7), the adhesive (51) of said adhesive area (8) being a repositionable adhesive suitable for reclosing said opening (7).
