Abstract (en)

[origin: WO2015038448A2] An article of footwear may include an upper incorporating a knitted component. The knitted component includes a knit element and an inlaid strand formed of unitary knit construction with the knit element. The inlaid strand extends through the knit element. A portion of the inlaid strand may extend into the heel region and may be external to the heel region. Pulling on the external portion may tension the inlaid strand.
