Abstract (en)  
[origin: WO2015035439A1] The method for chlorine-free anti-felting treatment of wool comprises the steps of: (a) applying a solution to the wool, the solution containing oxidizing agents based on peroxymonosulfuric sulphuric acid and a surfactant, (b) allowing the solution to act on the wool so as to complete the oxidation process, (c) washing the reaction products out of the wool, (d) treating the wool with a reducing agent, and (e) rewashing; wherein the steps are carried out continuously.
