Abstract (en)

[origin: WO2015040332A1] The present invention relates to a blank (1) and a box obtained from such a cardboard or corrugated-cardboard blank, comprising a succession of four leaves (3, 4, 5, 6) that are connected together in pairs by first folding lines (7, 8, 9), specifically two end leaves (3, 6) that are separated by two intermediate leaves (4, 5), and comprising on each side a set (10, 11) of rectangular flaps. One intermediate leaf (5) comprises at least one opening (13) adjacent to a first folding line (9) joining to an end leaf (6), the adjacent end leaf (6) comprising, on its peripheral edge opposite the first folding line (9), at least one tab (16) which has a shape complementary to the opening (13), is located in line (17) with the opening and is connected to the leaf by a second folding line (18) parallel to the first folding lines.
