Abstract (en)

[origin: WO2015039973A1] The invention relates to the use of alkyl- and/or alkenyl-oligoglycoside carboxylates, -sulphates, -phosphates and/or -isethionates, which are derived from alkyl- and/or alkenyl-oligoglycosides of general formula (I): R-O-(G)_p (I), wherein R represents C6-22 alkyl or C6-22 alkenyl, G represents a glycoside unit, derived from a sugar comprising 5 or 6 carbon atoms, and p represents a number from 1 to 10, for treating textiles, especially dyed textiles. The textiles treated with the compounds have improved color stability. The compounds can be stably integrated particularly into liquid detergents.
