Abstract (en)  
A mattress (20) includes a generally rectangular prismatic foam body (22), having a length, a width, and a thickness, having a top surface (24), a plurality of slits (26) in the top surface (24) of the foam body (22) extending across the width of the body (22) to divide the top surface (24) into a plurality of adjacent slats (28). An elongate chamber (30) extends through the body (22), parallel to and aligned with each slit (26). At least one fluid filled cell (32) disposed in each of the elongate chambers (30) to support the edges of adjacent slats (28).
