Abstract (en)

The present invention relates to a square ventilating container for a waste bag, which container is manufactured in a flexible material and comprises a basket part (1) having partially open sides (2, 3), four corner posts (5), which are only anchored to said basket part (1) at their bottom part (6), which allows the respective corner post (5) to be arranged to be able to be turned and/or bent for adaptation into a frame work.
