Abstract (en)

[origin: WO2015047088A1] The invention relates to a ground working device (1) for a vehicle, comprising a scraper plate (2) attachable to the vehicle for the purpose of displacing soil, a base plate (3) extending at an angle relative to the scraper plate (2) for the purpose of forming a carrier (4) in a space enclosed by the scraper plate (2) and the base plate (3), wherein the base plate (3) is displaceable substantially in the plane in which it extends for the purpose of setting the carrying capacity of the carrier (4). The invention also relates to a vehicle provided with such a device (1).
