Abstract (en)
[origin: WO2015039844A1] A cable lug device (300) and connection terminal (100) having a cable lug device (300), the connection terminal having a conductor receptacle (115), a clamping device (101) and a current bar receptacle (110a). On the connection terminal is provided a cable lug device (100) having a cable lug body (301) and, provided thereon, a cable receptacle (302) for fastening a connection cable (303). The cable lug body (301) has a current bar (310) that is inserted in a current bar receptacle (110a) of the connection terminal (100) and serves there as a current bar (110) for contacting a conductor (126).
