Abstract (en)
[origin: WO2015050522A1] The present invention relates to a sun visor system (1) which is designed to prevent the sunlight from coming to the eyes of the driver and the passenger and moves automatically, and has a router (5) which starts to move on the parallel rail (7) via the drive of the actuator (8) and enables the preventer (2) to be adjusted in direction of the windscreen and in opposite direction in preferred amount.
