Abstract (en)

[origin: WO2015049181A1] The invention relates to a method for presetting a vehicle seat (1) for a passenger (2) using the vehicle seat. Said vehicle seat comprises at least parts of a presetting device (12). The invention is characterized in that in a first step, information about the passenger is transmitted to the presetting device transmits and in a second step, the vehicle seat (1) is modified by said presetting device (12) such that the vehicle seat (1) adopts as the presetting for the passenger (2), a first vehicle seat configuration based on the transmitted information.
