Abstract (en)  
[origin: WO2011134741A1] A water-conducting domestic appliance (1), especially a laundry treating device for washing laundry, comprises a treatment zone (16), a treatment agent container (10) serving to stock treatment agents, a metering device (7) having a plurality of metering pumps (8, 9) serving to meter the treatment agents for the treatment zone (16), and a control (5), the control (5) having a plurality of treatment programs. A user can select one of these treatment programs. The control (5) controls the metering device (7) depending on the selected treatment program. At least one treatment agent parameter, especially a treatment agent type or a treatment agent quantity, can be adjusted by the user. The control (5) carries out the selected treatment program depending on the treatment agent parameter.
