Abstract (en)  
[origin: WO2015052324A1] Lighting or indicating device for a motor vehicle and corresponding assembly method. The invention relates to a lighting or indicating device for a motor vehicle, comprising an enclosure formed by a housing (1) and a mirror, said enclosure receiving a printed circuit (7) bearing at least one light source (8a-8d), and an optical device (15). The housing (1) comprises means (3a, 3b) for fastening the stack of the printed circuit (7) and the optical device (15), in such a way as to secure the housing (1), the printed circuit (7) bearing at least one light source (8a-8d), and the optical device (15), sandwiching the printed circuit board (7) between the housing (1) and the optical device (15).
