Abstract (en)
[origin: EP2862815A1] The invention relates to a method for manufacturing a moulded fibre packaging in particular a food package , more particular an egg package, comprising, - providing a fibre pulp for a moulding process, the fibre pulp being contained in a pulp container, characterized in that the method comprises, - adding lignocellulosic biomass not originating from wood to the pulp container to obtain a pulp mix comprising between 5-80% lignocellulosic biomass, wherein the lignocellulosic biomass contains between 0 to 2% protein in dry weight
