Abstract (en)  
[origin: US2016242560A1] An item of seating furniture includes a basic frame comprising a rear wall, at least one seat part arranged on the basic frame, at least one back part connected to the rear wall of the basic frame, and a plug receptacle integrated in the rear wall or in the at least one back part. The at least one back part is configured to be adjusted between a seated position in which the at least one back part is upright, and a folded-forward position in which the at least one back part is folded-forward. The plug receptacle is arranged to be concealed in the seated position and to be accessible in the folded-forward position.
