Abstract (en)
[origin: WO2015096890A1] Disclosed is a mechanism for opening a movable furniture component (12), in particular a drawer, door or flap, comprising a pull-out unit (19), a pull-out element (20) which includes a force accumulator and exerts an opening force on the movable furniture component (12) in the opening direction when said movable furniture component (12) is opened, and a damping device (21) for damping the opening movement of the movable furniture component (12).
