Abstract (en)
[origin: WO2015063412A1] The invention relates to an arrangement of a console mounted on the floor of the interior of a vehicle in a sliding manner, comprising storage compartments and convertible elements (4b) for creating a table, characterised in that the convertible elements (4b) of the table can be automatically extracted by a mechanical means (31), after unlocking a handle, in order to shift from a vertical storage position in a housing to a horizontal position of use as a table.
