Abstract (en)

[origin: WO2015062666A1] The present invention relates to a heating cooktop system (1) having a cooking cooktop (2) with a plurality of individual cooking zones (6) and a monitoring unit (3) in the form of an image sequence capturing device, said monitoring unit (3) being installed on an installation surface so as to be configured to have a direct vision angle for capturing any visual differentiation occurring in a cooking vessel on any one of said cooking zones (6).
